

Please amend the claims as follows:

1. (Currently Amended) A reaction mixture, comprising:
 - a) a first oligonucleotide ~~pre-primer~~ comprising i) an T7 promoter sequence, ii) a ribosome binding site sequence, iii) a start codon, iv) a sequence coding for a first epitope marker, ~~and v) a first wherein said primer lacks a region of complementarity to a region of the APC a gene of interest;~~ and
 - b) a second oligonucleotide primer comprising i) at least one stop codon, and ii) a sequence encoding for a second epitope marker, wherein said first and second epitope markers are selected from the group consisting of SEQ ID NOS: 5, 6, 7, 8 and 9, and wherein said first and second epitope markers are different.

6. (Cancelled)
7. (Cancelled)
8. (Cancelled)
9. (Currently Amended) A kit, comprising:
 - a) a first oligonucleotide primer comprising i) a T7 promoter sequence, ii) a ribosome binding site sequence, iii) a start codon, iv) a sequence coding for a first epitope marker, and v) a first region of complementarity to a region of the APC gene; ~~and~~
 - b) a second oligonucleotide primer comprising i) at least one stop codon, and ii) a sequence encoding for a second epitope marker, wherein said first and second epitope markers are selected from the group consisting of SEQ ID NOS: 5, 6, 7, 8 and 9, and wherein said first and second epitope markers are different;
 - c) a microtiter plate coated with a ligand capable of binding to a portion of the polypeptide encoded by said region of the APC gene;

- d) ~~a first antibody capable of binding to said first epitope marker; and~~
- e) ~~a second antibody capable of binding to said second epitope marker.~~

10. (Cancelled)

11. (Previously Presented) The kit of Claim 9, wherein said second oligonucleotide primer further comprises iii) a second region of complementarity to a template.

12. (Previously Presented) The kit of Claim 9, wherein said first region of complementarity is greater than 15 bases in length.

13. (Previously Presented) The kit of Claim 11, wherein said second region of complementarity is greater than 15 bases in length.
